

BORDERLESS SERVICE

SERVICIO SIN FRONTERAS

G&P Trucking Company, Inc.

*Where tradition and
technology create quality.*

SERVICE WHERE YOU NEED IT

G&P Trucking remains committed to providing solutions for our customers. This has led us to develop our *Seamlessly Simple Service* to and from Mexico.

G&P's *Seamlessly Simple Service* utilizes a system to pre-clear the cargo in advance, so we can cross your shipments faster with fewer delays. Our pre-arrival review system insures your freight has all required documents. If items are missing, G&P will help you complete the missing documentation prior to the cargo reaching the border.

G&P has established long-term agreements with Mexican transportation partners who share our same rigorous quality standards. By utilizing specially ordered 53' G&P dry vans which exceed international specifications, we are able to eliminate border transfers and other related delays. Our Mexican partners also use the same GPS tracking system we use in the U.S. This means tracing a shipment to Mexico works the same as finding any other shipment within our AS4000 network system.

Seamlessly Simple Service:

- Delivery to your forwarder/broker
- Delivery of your shipment to its final destination through G&P's network

Contact us today to see how G&P can handle your shipments— here and in Mexico— event-free.

G&P PROVIDES/ PROVEEMOS:

- Service to 48 states and beyond/Servicio a 48 estados y mas alla
- Just-In-Time service/Servicio al debido tiempo

- Around-the-clock customer service coverage/ Cobertura de servicio al cliente dia y noche
- Service supported by 67-year old asset-based truckload carrier/Servicio apoyado por una compania valiosa de carga de 67 anos

SERVICIO DONDE LO NECESITE

G & P Trucking se mantiene dedicado a proveer soluciones a nuestros clientes. Esto nos ha llevado a desarrollar nuestro *Seamlessly Simple Service* a y de Mexico.

G&P's *Seamlessly Simple Service* utiliza un sistema de desalojar el cargamento de antemano. Este sistema de revision por adelantado a la llegada asegura que su carga tenga todos los documentos requeridos. Si le falta algo, G&P le ayudara a completar la documentacion que le falta antes que el cargamento llegue a la frontera.

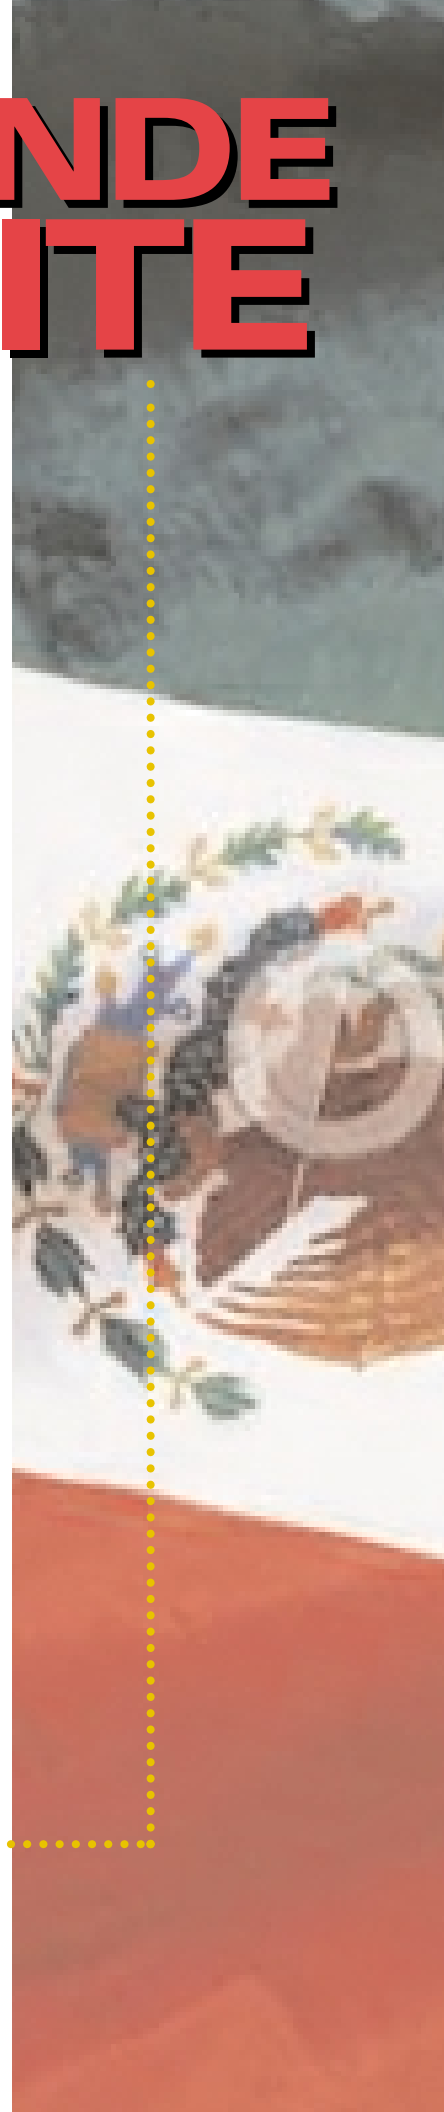

G&P ha establecido acuerdos de largo plazo con socios Mexicanos de transporte quienes comparten nuestros mismos niveles rigurosos de calidad. Con la utilizacion de cajas secas de G&P de 53 pies especialmente ordenados nos sobrepasamos en las especificaciones internacionales eliminando transferencias en la frontera y otros retrasos relacionados. Nuestros socios Mexicanos tambien

usan el mismo sistema de rastreo GPS que usamos en los Estados Unidos. Esto significa que rastrear un embarque a Mexico funciona igual como encontrar cualquier otro embarque dentro de nuestro sistema de red AS4000.

Seamlessly Simple Service:

- Entrega a su agente
- Entrega de su embarque a su destino final a traves de la red G&P

Contactenos hoy para saber como G&P puede encargarse de sus embarques— aqui y en Mexico— libre de eventos.
